### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Rudolpf Siegesmund on 1/20/2006.

The application has been amended as follows:

Please cancel claims 18-31.

### **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance: The cited prior art fails to teach claimed invention alone or in a combination.

The invention as claimed is a computer implemented method of compressing and comparing lines of source data from a new file and old file comprising removing blank spaces except for blank space within quotation marks, computing length of each line, inserting control words into each line of source data, comparing lines of source data in the old file to lines of source data in the new file having equal length, wherein control word is a pointer, length of the line and wherein the control words determine the order of

Art Unit: 2627

navigation through the lines of source data so that lines of source data having the same length are compared.

The cited prior art teaches in general compressing and comparing data from two different files and also generically teach inserting control word but fails to specifically teach control words as claimed including length of line and determining order of navigation and blank space removal as claimed. Therefore the claimed invention is allowable over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sanjiv D. Shah whose telephone number is (571) 272-4098. The examiner can normally be reached on M-F 9-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Bhavesh M. Mehta can be reached on (571) 272-7453. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
